

ENLIGHTENMENT
IN A COMPLEX
IT WORLD

Prestige
TECHNOLOGY SOLUTIONS

The installation and configuration of our technology infrastructure was key to the fixed time implementation of our J.D.Edwards OneWorld financials. Prestige Systems proved to be a much valued resource providing us with a range of knowledge, assisting us in the infrastructure design, installation and configuration of the technology. It made life much easier having a 'can do' partner who understood all aspects of the IT environment.

Duncan Whitfield
WIMS Project Manager
City Of Westminster

CLEAR THINKING ABOUT YOUR IT INFRASTRUCTURE

Your IT infrastructure is crucial to your business. The healthier it is, the better your business can perform. That's where Prestige comes in. We'll make sure your IT infrastructure is in the best possible shape. Just as importantly, we'll help you to keep it that way.

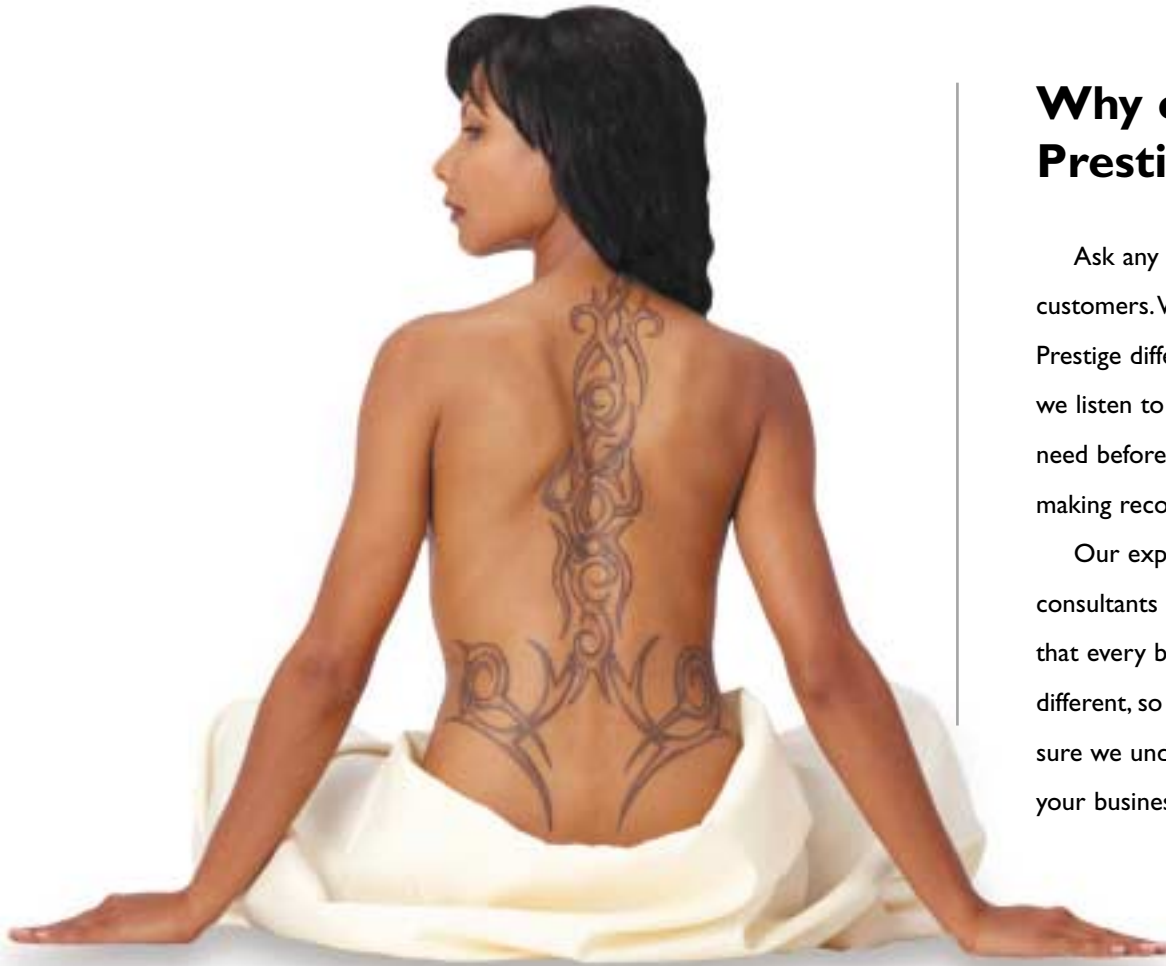

Whether you're starting a new enterprise or looking to enhance your existing business performance, whether you're looking for enterprise management solutions or e-commerce expertise, Prestige can help.

As one of the largest independent IT specialists in the UK – with a long track record of successful design, implementation and integration of IT infrastructure - you can count on us for clear

advice on the most cost-effective options. You can also rely on us to take a flexible approach, tailoring our advice and our solutions to meet the precise needs of your business.

Above all, you can count on us to deliver:

We'll bend over backwards to make sure your IT infrastructure provides you with all the functionality you need to operate successfully.

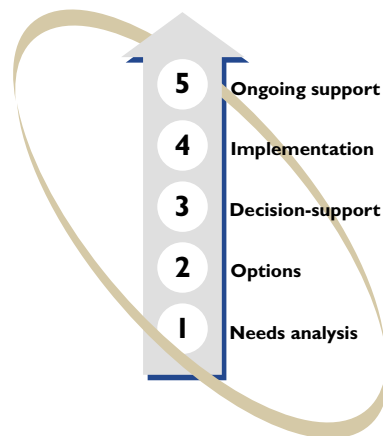

Why choose Prestige?

Ask any of our customers. What makes Prestige different is that we listen to what you need before we start making recommendations.

Our experienced consultants know that every business is different, so we make sure we understand your business thoroughly.

Thanks to our close working relationships with some of the leading IT companies in the world, we can give you a clear insight into all of the choices available to you.

We can also provide all the training and ongoing support you need to make sure your business maximises the return you get on your investment in IT.

We make certain that the advice and options we give you match your business objectives, as well as your IT strategy.

In an ever-changing business environment, it all adds up to advice you can rely on to help you make the right decisions about your IT.
